claim 14. Moreover, these claims recite additional limitations neither disclosed nor suggested by the cited references.

In view of the foregoing, it is respectfully submitted that the obviousness rejection of claims 14-21 is improper at this time and withdrawal of this rejection therefore is respectfully requested.

#### Addition of New Claim 25

Support for the addition of new claim 25 may be found in the specification and figures as originally filed. New claim 25 recites, in part, the limitations of generating a first macroblock based on a first estimated destination vector and a second macroblock based on a second estimated destination vector, wherein the first and second macroblocks are to be displayed simultaneously in real time. As admitted by the Examiner at page 8 of the Office Action, the cited references do not disclose at least these limitations.

#### Conclusion

It is respectfully submitted that the present application is in condition for allowance, and an early indication of the same is courteously solicited. The Examiner is respectfully requested to contact the undersigned by telephone at the below listed telephone number in order to expedite resolution of any issues and to expedite passage of the present application to issue, if any comments, questions, or suggestions arise in connection with the present application.

The Commissioner is hereby authorized to charge any fees which may be required, or credit any overpayment, to Deposit Account Number 50-1835.
